

# Cash Discount Calculator - Now Available!

 myalphaeoncredit.com/blog/2017/8/2/cash-discount-calculator-now-available

## Cash Discount Calculator ☆☆☆☆☆

Current Procedure Price

0 5000 25000

\$ 5,000

What is the longest term no interest financing plan you offer today?

☒ 6 Month No Interest (0.029 fee)

☐ 12 Month No Interest (0.069 fee)

☐ 18 Month No Interest (0.099 fee)

☐ 24 Month No Interest (0.119 fee)

What is the longest no interest financing plan you would like to offer tomorrow?

The availability of longer term no interest financing plans tend to attract more patients.

☐ 6 Month No Interest (0.029 fee)

☒ 12 Month No Interest (0.069 fee)

☐ 18 Month No Interest (0.099 fee)

☐ 24 Month No Interest (0.119 fee)

The difference between these two plans is:

0.04 %

If you increase your procedure price by the amount below, you can offer a longer term no interest plan AND offer patients a cash discount.

\$ 200

New Procedure Price

\$ 5,200

In June, we discussed how offering a cash discount could actually boost your bottom line. (If you missed that post, you can read all about it [here](#).)

Practices across the country reached out to learn more. Some wanted to offer longer no interest plans without paying more, some wanted to offer fair discounts to all patients, and others wanted to simply cover the cost of their financing fees.

To help these practices, we have created a Cash Discount Calculator. With this new tool, you can enter your procedure price, the plans you currently offer, and the plans you want to offer, in order to determine your needed cost and what type of discount you can afford to provide your patients.

To access the Cash Discount Calculator, select your specialty below:

Dermatology & Plastic Surgery

Ophthalmology

By offering a cash discount, both you and your patients can save money, making everyone happy.
